Coffee was easier influenced by disappointing Furn-pean cables and selling by importers. Still the decline was very slight for the receipts at Rio and Sautes were light, those markets were firm and there was a rair demand for local builts.

THURSDAY, Oct. 26. From the point of view of professional speculators the outlook for a further advance in the market value of stocks was not as propitious as it was yesterday. The London market was held in checks by unsatisfactory advices from South Africa and foreign arbitage dealers sold some of the stocks bought yesterday. Fears of an un-favorable bank statement were expressed, though money on call was distinctly easier than yesterday and shipments of currency to the interior so far this week have been much smaller than in previous weeks for a long time. As a matter of fact the advance in prices that has taken place very naturally tempted profit taking and that operation was indulged in to an extent that left many stocks fractionally lower than at the close yesterday The first movement of prices was toward a higher level, but realizing sales wiped out much of the early improvement. The elimination of a large part of the short interest reduced the demand from that source. There was, however, a good inquiry for stocks at the decline from commission houses.

All of the news affecting values was of a favor able character. It included a fresh installment of railway traffic returns. Most noticeable among these was the statement of the Atchison system for September. It is fortunate for the Street that it does not allow its enthusiasm over the present business situation to get the better of its judgment regarding the money market. There appears to be enough money to go around at about the legal rate, but any wild speculation on the Stock Exchange, accompanied by a sudden inflation of values, would promptly disclose the fact that the supply is still limited. Consequently the market will have to improve gradually

and along conservative lines.

Exceptionally strong features rule Sugar Refining. American and Continental Tobacco issues all of the local traction stocks, Missouri Pacific Southern Railway shares and People's Gas. The American Malting stocks more than recovered vesterday's material decline, owing to a better understanding of the company's affairs. Other memhers of the less active list that made good showings were Ann Arbor preferred, Brunswick, Colo rado Midland preferred. St. Joseph and Grand Island 1st and 2d preferred and Standard Rope and Twine. The closing was fairly steady.

ordered that the three men be placed under arrest and that complaints be drawn against them. The prisoners were Charles T. Wills, a builder of 156 Fifth avenue; William G. Nichols of Herter Brothers, furniture manufacturers of 360 Fifth avenue, and Jacob Dieter, a furni-ture manufacturer of 70 Bedford street.

Wills has the contract to erect and furnish the building. It was awarded to him by the Sinking Fund Commission in December, 1807, upon the recommendation of the Justices of the Appellate The amount of the contract is Division. nearly \$650,000. He also has an additional contract for furnishing the building which amounts to \$100,000 and which was awarded on July 31, 1880. Herter Brothers hold, under the latter contract, a sub-contract for chairs, sofas and tables. It was sworn yesterday that the intter firm had auti-let part of the work to Dieter without first obtaining consent of the architect, James Brown Lord, as stipulated in the contract. The complainants presented the testimony of many workmen employed by Herter Brothers and Dieter to prove that both firms had violated that section of the labor law which says that eight hours shall constitute a legal workday; and that the workmen shall be paid according to the prevailing rate of wages. Evidence was introduced to show that both firms had made their employees work from nine to eleven hours a day, and that the workmen of Dieter had been raid at the rate of 22 cents an hour although the prevailing rate for such work in this city is 30 cents. Dieter objected to the charge on the ground that he had been ignorant of the fact that he was doing work for the city. The magistrate refused to exempt him and held the three prisoners for examination on next Thursday afternoon. They were paroled in the meantime. Assistant District Attorney Thomas Byrne examined the witnesses.

The Labor law provides that whenever a violation has been proved, the contract of the offender shall be forfeited, and no money shall be paid to him on such contract. Gernon and Ash said yosterday that they had notified the Comptroller that it would be unlawful for him to pay any more money on the contract in question. hours shall constitute a legal workday; and Amenda 7.18 7.12 7.1727.18

TWO NORWALK ROBBERS CAUGHT. Pelice Catch Some of the Burglars Operat-

ing There-Miss Baird's School Robbed. Nonwalk, Conn., Oct. 26.-The Norwall police at an early hour this morning rounded up two burglars who, they believe, are members of the gang that has been systematically robbing residences and stores here for two weeks. They were loaded with plunder, which ther had secured from H. S. Brown's shoe store and Jesse Brundage's meat market in East Norwalk. The young men are John Tanner and Ward Phillips, well-known local characters. While policemen William S. Bartram was patrolling North avenue early this morning he saw two men approaching with bags on their shoulders. Bartram confronted them He grabbed young Tanner and turned to take Phillips, when the latter jumped aside and started to run. The policeman quickly drew his revolver and fired at him but missed. and the man made his escape in the fog. Bartram finally found the fugitive out in the country hiding in a barn in a baymow with his plunder concealed near by. Phillips pulled a revolver, but was overpowered before he could use it. The men pleaded guilty to the rob-

While the Norwalk police were congratulating themselves upon the round-up of the burglars, they were informed by a telephone call of a robbery at Miss Cornelia L. Biaird's fashionable bearing school by a sneak thiel who gained entrance to the bremises at 3 object this afternoon by representing himself as an inspector of the Electric Light and that Company. He ransacked every one of the sleeping rooms and secured watches and lewelry including several diamonds, amounting in all to several hundred dollars. The young women at the time were attending recitations. There are about 100 pupils, many of whom are from New York city.

yesterday that nothing was known about the charges, and that Gen. Roe was not expected there until next Monday. Gen. Butt would tell the reporters nothing.

"It is a case of military lock-jaw, until I see the Governor," he said. A prominent officer of the guard said:

"Gen. Roe is too well informed an officer to put himself in a position where he could be accused of violating the military regulations of the State. The General being a graduate of West Point is himself a stickler for discipline. I don't believe that Gen. Roe is losing any sleep over these charges."

Some officers in discussing the charges yesterday, held that the Governor must surely order an inquiry if charges were presented, while others were of opinion that the Governor might order both officers before him, and perhaps adjust the differences without more fermal proceedings.

Young Widow's Friends Have Her Arrested They Say, as a Last Resort to Save Her. Mrs. Mabel Gallaher, a young widow, was a prisoner in the West Fifty-fourth street police court yesterday charged with habitual drunkeness by her sunt, Mrs. Herbert Tourell of 64 Edgecombe avenue, and Miss Josephine Lemon of 63 West 104th street, with whom Mrs. Gallaher recently boarded. The two women when they obtained the warrant for her arrest told Magistrate Pool that they had decided on that course as a last resort to save her from complete ruin.

"She is a young woman," said Mrs. Tourell, "and comes of excellent family. Her mother is now on her deathbed in Nebraska, and it is for her sake too that I want to save her daugh ter. We cannot be responsible for her any longer and think that she should be committed to an institution. She has left Miss Lemon's home and gone to live in a flat at 147 West Sixteenth street."

Mrs. Gallaher was accompanied to court by Mr. and Mrs. J. M. Chuna from the house in Sixteenth street, both of whom denounced her arrest as an outrage and set up rival claims of friendship for her and interest in her welfare. The Chunas also furnished a lawyer.

Magistrate Pool declined to go into the case fully until to-day. He gave the prisoner her choice of being locked un for the night or being paroled in the custody of her aunt. Without any hesitation Mrs. Gallaher chose the brison. Mr. Chuna said that she had gone to his house to get away from a man who had annoyed her.

FROM SING SING TO AUBURN, The Latest Transfer of Prisoners Leaves 227 Vacant Cells.

Sing Sing, N. Y., Oct. 26.-A draft of fifty-one convicts will be taken from Sing Sing Prison to-morrow morning to Auburn Prison. With one exception the men to go are what are known as class "B" men, or prisoners serving a second term. This will be the second draft a second term. This will be the second draft from Sing Sing prison this week and as a result, the prison will to morrow evening have but 1,123 men behind its bars. This will be the smallest number incarcerated here in twenty years. For the past ten years there has been as high as lifteen hundred and sixteen hundred brisoners here, seldom leas than fourteen hundred orden, without counting the hospital accommodations.

During the year when there was a large number of prisoners there were many cells shared by two prisoners. The industries at Auburn require more men than those at Sing Sing Prison, and this is the reason given for this draft.

First Mortgage Four Per Cent. Gold Bonds OF THE

PITTSBURGH & WESTERN RAILWAY COMPANY

(DATED JULY 1, 1887):

Referring to our notice of December 14, 1898, we have to announce that holders of more than 8 per cent, in amount of the First Mortgage Four Per Cent. Gold Bonds of the Pittsburgh and West-ern Railway Company have deposited these bonds with us in accordance with the terms of said notice.

We have further to announce that we have made

arrangements with the Reorganization Managers of the Baltimore and Ohio Ratiroad Company whereby, in case they issue any Plan of Reorganization of the Pattsburgh and Western Railway Company prior to December 14, 1809, they under take to give all our depositors whose bonds shall not have been sold to them for cash, as stated in the next paragraph, an option for at least thirty days after such Plan is issued, to take par and interest in cash, or to have their bonds included in the Plan on the basis of new securities. They also agree that at the expiration of such option, they will purchase from us for cash at par and accrued interest up to the time of delivery, all bonds held by us in respect of which the option to take new securities shall not have been exercised, we agreeing to sell them such bonds. If no Plan shall have been issued by that date, the foregoing arrangements will continue in force thereafter until said Reorganization Managers

terminate the same by notice to us. If any holder of our receipts or certificates, rather than await such Plan, desires and shall elect to sell his bonds for cash (thereby losing his right of elecance of the Plan, said Reorganization Managers further agree that, at any time prior to December to us), such holder may present his receipt or certificate at our office for proper annotation of such elec-tion thereon, and that, at the expiration of thirty days from the date of such annotation, he shall receive par and accrued interest in cash therefor at our office upon surrender of his receipt or certificate properly endorsed.
